FREE SOLAR PANELS FOR RYEDALE RESIDENTS

Ryedale District Council and Yorkshire Energy Partnership have teamed up to offer free solar panels to Ryedale residents. The scheme, which is the first of its kind in the area is funded by a private investor who re-coup their investment through the Government backed Feed-in-Tariff scheme. Residents will then benefit from the **free electricity** from the solar panels.

Solar photovoltaic panels use daylight to generate electricity for your home and can reduce your electricity bills by £294 a year. If you have a south facing roof and own your own home then you may qualify for FREE Solar Panels.

To find out if your property is suitable or for more information contact Yorkshire Energy Partnership on 01904 545020 or visit our website www.yorkshireenergypartnership.org.uk

Yorkshire Energy Partnership is also helping to generate community-owned renewable energy in North Yorkshire. Renewable energy is a great way to provide community buildings with cheaper energy and to raise money for local projects. Find out more by contacting Harriett Richardson on 01904 545025 or by email: harriett.richardson@energypartnership.org.uk.

Governors required

Luttons CP School is looking to recruit two Associate Governors to join their proactive and friendly Governing Body.

The appointment of two new Associate Governors will help support the school on its journey to become Outstanding. We are looking to recruit people with business knowledge and/or budgetary management skills, to further enhance the existing skills of the current Governors.

A successful candidate would be required to attend meetings, read documentation, respond to email requests, attend off-site training, and familiarise themselves by visiting school to build relationships with staff and pupils. This is a very fulfilling voluntary role, where full training and support will be given. For more information visit www.northyorks.co.uk. Becoming a Governor.
